Hello,

Here is your monthly update on clinical and farm studies at the UW Veterinary Care. Some trials recruit healthy animals as controls. Many of the trials provide a reduction in the cost of treatment. For more information on any of these studies, please visit our webpage: uwveterinarycare.wisc.edu/clinical-studies or call the clinic and speak to a member of the specific service: 608-263-7600, press 3 for the large animal hospital. Thank you for helping improve the health of animals.

- **Orthopedics** – ask for Dr Sabrina Brounts
  - Horses with **Degenerative Suspensory Ligament Desmitis** - investigate genetic heritability of this disease
