The following clinical and farm studies are recruiting patients at UW Veterinary Care. Some trials recruit healthy animals as controls. Many trials provide a reduction in the cost of treatment. For more information on any studies, please visit our webpage: uwveterinarycare.wisc.edu/clinical-studies, or call the clinic and speak to a member of the specific service: 608-263-7600, press 3 for the large animal hospital. Thank you for helping improve the health of animals.

- **Emergency and Critical Care** – ask for Dr Ana Moreira
  - Foals hospitalized in the intensive care unit - investigate accuracy of point-of-care samples for glucose monitoring in critically ill neonates

- **Orthopedics** – ask for Dr Sabrina Brounts
  - Horses with Degenerative Suspensory Ligament Desmitis - investigate genetic heritability of this disease
