

**University of Wisconsin - Madison
Lymphoma Rescue Protocol**

Date of first diagnosis: _____

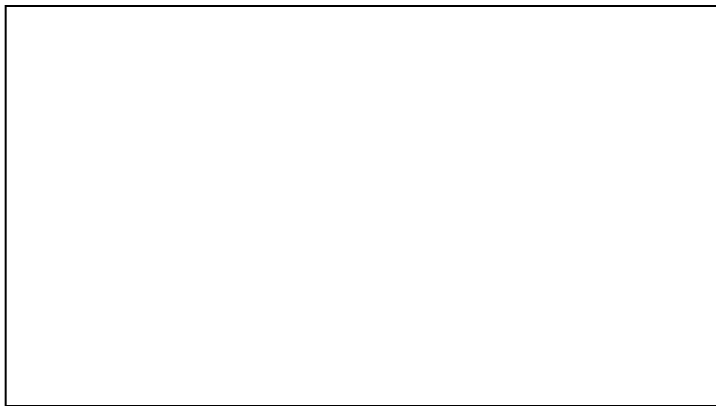

Immunophenotype: _____

Completion date of first protocol: _____

Date of confirmed relapse: _____

_____ kg _____ m²

Perform pre-treatment chem. Baseline ALT: ____

	Treatment	Date	Dose	CBC/ ALT values	Response
Week 1	L-asparaginase 400 U/kg SC CBC + CCNU 70 mg/m ² PO Prednisone 2 mg/kg PO, SID	_____	_____	Neut: _____ PLT: _____ ALT: _____	_____
Week 2	Prednisone 1.5 mg/kg PO, SID	_____	_____	Neut: _____ PLT: _____	_____
Week 3	Prednisone 1.0 mg/kg PO, SID	_____	_____		
Week 4	L-asparaginase 400 U/kg SC Diphenhydramine 2 mg/kg IM CBC + CCNU 70 mg/m ² PO Prednisone 1.0 mg/kg PO, EOD	_____	_____	Neut: _____ PLT: _____ ALT: _____	_____
Week 5	Prednisone 1.0 mg/kg PO, EOD	_____	_____	Neut: _____ PLT: _____	_____
Week 6	Prednisone 1.0 mg/kg PO, EOD	_____	_____		
Week 7	CBC + CCNU 70 mg/m ² PO Prednisone 1.0 mg/kg PO, EOD	_____	_____	Neut: _____ PLT: _____ ALT: _____	_____
Week 8	Prednisone 1.0 mg/kg PO, EOD	_____	_____	Neut: _____ PLT: _____	_____
Week 9	Prednisone 1.0 mg/kg PO, EOD	_____	_____		
Week 10	CBC + CCNU 70 mg/m ² PO Prednisone 1.0 mg/kg PO, EOD	_____	_____	Neut: _____ PLT: _____ ALT: _____	_____
Week 11	Prednisone 1.0 mg/kg PO, EOD	_____	_____	Neut: _____ PLT: _____	_____
Week 12	Prednisone 1.0 mg/kg PO, EOD	_____	_____		
Week 13	CBC + CCNU 70 mg/m ² PO Prednisone 1.0 mg/kg PO, EOD	_____	_____	Neut: _____ PLT: _____ ALT: _____	_____
Week 14	Prednisone 1.0 mg/kg PO, EOD	_____	_____	Neut: _____ PLT: _____	_____
Week 15	Prednisone 1.0 mg/kg PO, EOD	_____	_____		

Treatment discontinuation criteria:

After completion of protocol, two treatments beyond CR, or progressive disease

Elevation of ALT beyond twice the upper limit of normal (Call for advice)

Perform CBC and physical examination prior to each chemotherapy treatment.

Neutrophils greater than 1500	Okay to give chemotherapy
Neutrophils 750 - 1500 with no fever	Do not give chemotherapy Can go home with instructions for close monitoring (No antibiotics)
Neutrophils less than 750	Do not give chemotherapy. Recheck CBC in 2-3 days. Call VMTH. Start on antibiotics (enrofloxacin 10 mg/kg PO SID for 5 days or ciprofloxacin 15-20 mg/kg PO BID for 5 days).
Febrile (>102.5) and unwell, neutrophils less than 1500	Hospitalize on IV fluids and IV antibiotics (Enrofloxacin and ampicillin are antibiotics of choice). Recheck CBC in 24 hours. Call VMTH
Platelets less than 50000	Do not give chemotherapy, recheck CBC in 2-3 days.
