

Canine Lymphoma Clinical Trial

UW Veterinary Care

is currently enrolling in a randomized, placebo-controlled clinical trial for dogs with naïve or first relapse lymphoma.

PARTICIPATION

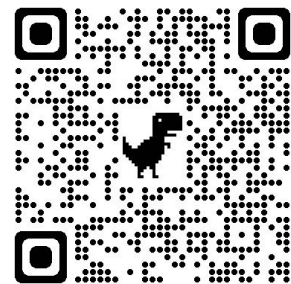

- Dogs will receive study treatment (verdinexor OR placebo) in the form of oral tablets to be given at home twice weekly for 8 weeks.
- Owners will be required to bring their dog to UW Veterinary Care for regularly scheduled visits over 2-months.
- Owners will be required to record medication dosing and observations using a phone app.

YOUR DOG MAY QUALIFY IF

- Your dog is at least 1 year old
- Your dog weighs at least 20lbs (9kg)
- Your dog has naïve or first relapse lymphoma

STUDY BENEFITS

- **FULLY FUNDED** (no cost to you)
- **FREE** exams and rechecks
- **FREE** lab work (CBC, chemistry, urinalysis, FLOW cytometry)
- **FREE** diagnostics (radiographs, abdominal ultrasound)
