

Safety Evaluation of Verdinexor (Laverdia-CA1) in Combination with Lomustine (CCNU) in Dogs with Naïve Multicentric Lymphoma: A 3+3 Phase I Clinical Trial

STUDY CHECKLIST

UW Veterinary Care
2015 Linden Drive, Madison, WI 53706

CCNU dose: _____

Time	Date (DDMMYY)	Procedures
Pre-treatment (Day -7 to 0)		<input type="checkbox"/> Physical examination <input type="checkbox"/> CBC <input type="checkbox"/> Chemistry Profile <input type="checkbox"/> Lymph node measurements <input type="checkbox"/> Cytologic confirmation of disease <input type="checkbox"/> Immunophenotyping with flow cytometry <input type="checkbox"/> Consent Form
Day 0		<input type="checkbox"/> Physical examination <input type="checkbox"/> CCNU #1 <input type="checkbox"/> Start Denamarin (continue daily throughout protocol)
Day 0-3		<input type="checkbox"/> Start Laverdia 1.25 mg/kg (continue twice weekly throughout protocol)
Day 7		<input type="checkbox"/> CBC <input type="checkbox"/> Temperature check May be done with rDVM
Day 14-17		<input type="checkbox"/> Increase Laverdia to 1.5 mg/kg if previously well tolerated (continue twice weekly throughout protocol)
Day 21		<input type="checkbox"/> Physical examination <input type="checkbox"/> CBC <input type="checkbox"/> Chemistry Profile <input type="checkbox"/> Lymph node measurements <input type="checkbox"/> CCNU #2
Day 28		<input type="checkbox"/> CBC <input type="checkbox"/> Temperature check May be done with rDVM
Day 42		<input type="checkbox"/> Physical examination <input type="checkbox"/> CBC <input type="checkbox"/> Chemistry Profile <input type="checkbox"/> Lymph node measurements <input type="checkbox"/> CCNU #3
Day 49		<input type="checkbox"/> CBC <input type="checkbox"/> Temperature check May be done with rDVM
Day 63		<input type="checkbox"/> Physical examination <input type="checkbox"/> CBC <input type="checkbox"/> Chemistry Profile <input type="checkbox"/> Lymph node measurements <input type="checkbox"/> CCNU #4
Day 70		<input type="checkbox"/> CBC <input type="checkbox"/> Temperature check May be done with rDVM

Safety Evaluation of Verdinexor (Laverdia-CA1) in Combination with Lomustine (CCNU) in Dogs with Naïve Multicentric Lymphoma: A 3+3 Phase I Clinical Trial

Day 84		<input type="checkbox"/> Physical examination <input type="checkbox"/> CBC <input type="checkbox"/> Chemistry Profile <input type="checkbox"/> Lymph node measurements <input type="checkbox"/> CCNU #5
Day 91		<input type="checkbox"/> CBC <input type="checkbox"/> Temperature check May be done with rDVM
Day 105-112		<input type="checkbox"/> Physical examination <input type="checkbox"/> CBC <input type="checkbox"/> Chemistry Profile <input type="checkbox"/> Lymph node measurements
